- Maintain good cleanliness and hygiene, regularly disinfect hard areas
- Secure poultry enclosures with appropriate fencing to deter wild birds
- Use of disinfectant mats or foot dips between buildings

Before entering a poultry gathering, participants must:

- Not enter if the place of origin of the birds is within an of the UK which is under restrictions relating to notifiable avian disease (including Prevention, Protection and Surveillance zones)
- Not enter birds that have attended a poultry gathering in the previous 13 days, or if purchased birds have been brought onto the premises of origin in the past 13 days
- Inspect the health of all birds at the place of origin before departure

- Not move birds if there are any signs, or suspicion of any disease
- Transport birds in clean solid-bottom and sided carriers
- Use clean bedding material at the start of the journey, on the date of departure, which must be contained within the carrier at all times.
